Confluence (software) - Wikipedia Confluence is a collaboration software program developed and published by Australian software company Atlassian. Atlassian wrote Confluence in the Java programming language and first published it in 2004. Export Atlassian Confluence wiki to a PDF - Stack Overflow Yes and no. Yes, because Confluence is able to export wiki spaces directly to PDF. No, because you normally want to do some styling and define the order of the export, which is not so easy with Confluence. Solved: The embedded PDF viewer macro (View File) doesn't ... I'm leaning to it being a Confluence problem, not a PDF one. I have a page that would not preview a PDF, neither with the PDF macro nor the Attachments macro. Portable Document Format - The Registry - Confluence Description. The Portable Document Format is intended to provide a platform-independent representation of formatted documents. It has its origins in (and is based on) the PostScript page description language.
